EDUCATION

BS Software Engineering
DHA Suffa University
10/2022 - Present,
Karachi,Pakistan.

Intermediate St
Patrik's College
03/2020 - 03/2022,
Saddar,Karachi,Pakistan.
–*Courses*
Pre-Engineering

Metric
Beacon Light School
2018 - 2020,
-*Courses*
Science

SKILLS

Python | SQL | JS | HTML | CSS | Flask | React

PERSONAL PROJECTS

LifePulse – Hospital Web Application
Building a secure hospital management platform that enables doctors to upload prescriptions and lab reports, while allowing patients to view medical records, book online appointments, and access services through a responsive, user-friendly interface. Implementing authentication, database management, and modern UI design using HTML, CSS, and JavaScript.

StudentManagementSystem(Java)(11/2023 - 11/2023)
Developed a concise Student Management System in Java, featuring efficient student record management, course enrollment, and grade tracking functionalities. Utilized object-oriented design principles for scalability and modularity, ensuring robust performance and ease of maintenance.

PizzaDeliverySystem(Java)(11/2023 - 01/2024)
Developed a Pizza Delivery System using Doubly Linked Lists in Java for a DSA course. Efficiently managed orders, delivery routes, and customer data. Employed doubly linked lists for dynamic order handling and optimized route management. Applied DSA principles to enhance performance and scalability.
